

CATUR SATRIYA WARDOYO

Fresh Graduate Mathematics | Data Analysis & Operations Research

lsponsal304@gmail.com | +6285601567650 | [linkedin.com/in/catursatriyawardoyo](https://www.linkedin.com/in/catursatriyawardoyo)

SUMMARY

Fresh graduate in Mathematics from Universitas Padjadjaran with a track record of active leadership in student organizations and hands-on field research across social, environmental, and financial-market contexts. Experienced turning large, messy field datasets into structured outputs risk matrices, technical reports, and data-driven recommendations that inform real decisions. Built a strong quantitative foundation through coursework in statistics and mathematical modeling, complemented by basic Python and Excel for data processing. Proven collaborator and coordinator across cross-functional teams and 50+ member organizations, comfortable engaging stakeholders from local residents to regional government.

EDUCATION

Bachelor of Mathematics

Aug 2022 – Aug 2026

Universitas Padjadjaran (Unpad), Jatinangor, Indonesia - GPA 3.27/4.00

- English proficiency score 550 (TKBI Unpad)
- Thesis “Comparative Analysis of Financial Performance and Market Reaction Following the Merger of PT XLSmart Telecom Sejahtera Tbk Using the Analysis of Means (ANOM) Method for the 2020-2025 Period” focus applied statistics and quantitative finance, under supervision of Dwi Susanti, Dra., M.Si. and Prof. Dr. Sukono, MM., M.Si.

WORK EXPERIENCE

Researcher

Oct 2025 – Jul 2026

Enviro Strategic Indonesia (Contract) - Riau (PHR Operational Area)

- Conducted social mapping and social conflict analysis in PT Pertamina Hulu Rokan's operational area as part of a Community Involvement & Development (CID) planning program.
- Collected GPS-based field data and compiled it into an Asset-Risk-CID Program Interfacing Matrix to support operational risk assessment.
- Gathered data through surveys, FGDs, and direct interviews, then compiled it into technical reports combining analysis with GIS mapping.

Production Support, Section Heat Treatment

Jul 2021 – Jun 2022

PT. Komatsu Undercarriage Indonesia (KUI), Cikarang, Indonesia

- Responsible for the heat treatment process in heavy-equipment production, ensuring output consistently met established quality standards.
- Coordinated with production and quality control teams to keep the process running smoothly and minimize field issues.
- Won 2nd place at the All Komatsu Indonesia Technical Olympic 2021, an internal technical competition assessing employees' competence and process understanding across all Komatsu Indonesia units.

LEADERSHIP & ORGANIZATIONAL EXPERIENCE

Manager of Environmental Division

Jan – Dec 2025

BEM KEMA FMIPA Unpad

- Designed and led environmental programs to build sustainable habits among FMIPA students.
- Led a team of volunteers on tree-planting, eco-education workshops, and waste-management initiatives.

Administrative Coordinator & Data Manager

Dec 2022 – Dec 2025

Ikatan Mahasiswa Berprestasi, Wonogiri Regency - Research, Technology & Career Division / External Affairs Division

- Selected as an Outstanding Student (Mahasiswa Berprestasi) representing Wonogiri Regency.
- Managed organizational data and reporting systems for a group of 50+ active members.
- Developed and tracked members' career-development records; served as liaison between divisions.
- Recognized as Best Coordinator for organizational and data-management performance.

PROJECT

Web Developer & Business Case Contributor

Dec 2024

Ruang Sampah - EcoSmart | Kompetisi Inovator Muda 2.1, Kemenaker RI (BBPKK Bandung Barat)

- Built the project website (ruangsampah.link.or.id) and co-developed investor pitch materials (Business Model Canvas, financial projections, exit strategy).
- Presented a tech-based waste-management solution to a panel of judges/mentors.

Research & Data Documentation Specialist

Aug 2024

Eksplorasi Nusantara 4.0 - South Kalimantan | Conservation Research Program, Universitas Padjadjaran

- Collected and processed field data on proboscis monkey populations, ensuring dataset consistency and reliability.
- Lead author of a scientific article based on the research findings.
- Contributed to a policy recommendation delivered to the local government.

Talent Development Program
Gelanggang Inovasi dan Kreativitas (GIK) UGM, Yogyakarta

- Completed a 6-month industry-based talent development program with direct mentorship from BUMN and multinational partner companies.
- Delivered a capstone project addressing a real industry challenge; received an industry-recognized certificate convertible into academic credit (SKS).

Jul – Dec 2023

Research & Innovation Member
Ekspedisi Padjadjaran #5 - Labuan Bajo | Community Service Program, Universitas Padjadjaran

- Authored two technical articles based on field research and observation.
- Helped draft a policy recommendation presented to the Regent of West Manggarai.

Aug 2023

ACHIEVEMENTS & AWARDS

- 1st Place, Putra Mathematics 2023
- 2nd Place, Olimpiade Pasar Modal JFI FEST 2024
- Recipient of University-Level PKM Funding (Kemdikbud)
- 2nd Place, All Komatsu Indonesia Technical Olympic 2021

SKILLS

Analytical & Technical: Statistical & Quantitative Analysis, Mathematical Modeling, Python (Basic Data Processing), Excel (Formulas, Pivot Tables), Google Sheets/Workspace, GIS & Spatial Data Collection, Data Cleaning & Organization

Leadership & Interpersonal: Team Leadership, Structured Problem Solving, Stakeholder Engagement, Cross-Functional Coordination, Public Speaking, Organizational Data Management

Communication: Technical & Scientific Report Writing, Policy Brief Writing, Field Research (Survey, FGD, Interview), Bahasa Indonesia (Native), English (TKBI 550)
